

Ice Resources Answer Sheet

The ice industry was a lucrative business because of the high demand for ice, especially in urban areas. The cost of the ice depended on the resources used to produce it. Three different resources were used in the production of ice: natural, capital, and human. Fill in the chart below listing all the ice harvest resources you can think of in their proper category.

Natural Resources	Capital Resources	Human Resources
<ul style="list-style-type: none">- water (millpond)- cold weather for freezing- sawdust (for insulation - note some might list this as a capital resource)	<ul style="list-style-type: none">- ice plows- other ice harvesting tools- bobsleds- horses and/or mules- wagons for selling ice- ice house	<ul style="list-style-type: none">- people to cut ice- people to pack ice-house- people to drive draft horse teams
There may be more resources than these. Did you think of others?
